

New Source Review newspaper advertisements for construction permit applications, August 19, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: August 17, August 18, or August 19, 2004. Public notices are generally published every two weeks. The previous publication of public notices was August 3 – 5, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Jefferson County Highway Commission with a mailing address of P.O. Box 247, Dandridge, TN 37725. They seek to obtain an air contaminant permit (Division identification number: 45-0023-02/57513) for modification of an Asphalt Batch Plant located on J.C. Thomas Drive, Dandridge, TN 37725. This existing operation consists of crushed rock and sand stockpiles, silos, batch mixer, conveyors, and associated equipment used to produce hot-mix asphalt. Natural gas is used for fuel. Baghouses are used for pollution control. The requested modification is to update the permitted emissions. There would be no physical construction. There are regulated air contaminants emitted by this source. Mr. J. Martin is the assigned Division person.

For the Jefferson County "Standard-Banner"--published once on or before Thursday, August 19, 2004.

The applicant is Radford Quarries of Boone, Inc. with a mailing address of P.O. Box 2071, Boone, NC 28607. They seek to obtain an air contaminant permit (Division identification number: 46-0041-01/57484) for construction of an Asphalt Batch Plant at 540 Doe Creek Road, Butler, TN 37640. This proposed operation would consist of crushed rock and sand stockpiles, silos, drum mixer, conveyors, and associated equipment used to produce hot-mix asphalt. No. 2 fuel oil would be used for fuel. Baghouses would be used for pollution control. There would be physical construction. There would be regulated air contaminants emitted by this source. Mr. J. Martin is the assigned Division person.

For the Johnson County "Tomahawk"--published once on or before Thursday, August 19, 2004.

The applicant is Cargill, Incorporated with a mailing address of P.O. Box 5601, Minneapolis, MN 55440. They seek to obtain an air contaminant permit (Division identification number: 49-0044-01/55525) for modification of a Air Pollution Control

Grain Terminal located on Star Route, Hales Point, TN 38040. This existing operation consists of a receiving pit, an elevating leg, storage bins, a barge loadout spout, and associated equipment used to transfer and store agricultural products. The requested modification is to increase the hourly throughput through the terminal. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the "Lauderdale County Enterprise"--published once on or before Thursday, August 19, 2004.

The applicant is Dal-Tile International, Inc. with a mailing address of P.O. Box 2768, Jackson, TN 38301. They seek to obtain air contaminant permits for air contaminant sources located at 96 American Drive, Jackson, TN 38302, as follows:

(1) Two (2) Ceramic Tunnel Kilns (Division identification number: 57-0045-16/57503). This existing operation consists of two tunnel kilns and associated equipment used cure ceramic tiles. The kilns are fired with natural gas, with propane as a backup fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

(2) Tile Dryer (Division identification number: 57-0045-31/57504). This existing operation consists of a natural gas fired dryer, with propane backup, and associated equipment used to dry green pressed tile prior to kiln entrance. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Madison County "Jackson Sun-Daily"--published once on or before Thursday, August 19, 2004.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 58-0073-04/57478) for construction of a Generator located at 802 19th Street, South Pittsburg, TN 37380. This proposed operation would consist of an electric generator powered by a diesel internal combustion engine used to provide power for an existing permitted rock crushing operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Marion County "Jasper Journal"--published once on or before Thursday, August 19, 2004.

The applicant is Electrolux Home Products with a mailing address of 1100 Industrial Drive, Springfield, TN 37172. They seek to obtain an air contaminant permit (Division identification number: 74-0055-41/57404) for construction of a Porcelain Enamel Coating Operation at 1100 Industrial Drive, Springfield, TN 37172. This proposed operation would consist of a natural gas-fired water heater, 4-stage parts washer, dry-off oven no.1, washer cooling tunnel, wet enamel flow coater, dry-off oven no.2, curing furnace, and furnace cooling tunnel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Y. Aleali is the assigned Division person.

For the "Robertson Co. Times"--published once on or before Thursday, August 16, 2004.

The applicant is Hoeganaes Corporation with a mailing address of 1315 Airport Road, Gallatin, TN 37066. They seek to obtain an air contaminant permit (Division identification number: 83-0129-37/57492) for modification of Two Annealing Furnaces located at the same address. This existing operation consists of two annealing furnaces and associated equipment used to anneal powdered steel. Natural gas and number 2 fuel oil are used for fuel. Baghouses are used for pollution control. The requested modification is to increase the hourly fuel input limits for the annealing furnaces. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the Sumner County "News-Examiner"--published once on or before Thursday, August 19, 2004.
